RECORDED & INDEXED

MAY 25 1931

LIST 22-H

MAY 25 1931 ★

THIS LIST COVERS STOCK OFFERED BY

CLARKE NURSERY CO.

SAN JOSE, CALIF.

SEASON 1922-1923

PLEASE NOTE

All summer quotations not accepted to date are hereby cancelled.

GRADING. Plants that are wider than they are tall are graded by width.

QUANTITIES. Five or more plants of one kind and size will be supplied at 10 rate; 50 or more at 100 rate; 500 or more at 1000 rate.

POTS. Prices on pot grown stock do not include the pots and unless otherwise instructed plants will be removed from pots before shipping. If wanted in the pots they will be charged for at cost.

PACKING. Will be charged for at cost as usual. Plants will be packed to secure lowest possible freight classification consistent with the nature of goods shipped.

SHIPPING. Please state distinctly whether you wish goods shipped by freight or express and where water shipment is possible be sure to specify by water or rail as you may prefer.

STOCK TO GROW ON. This list contains quite a lot of stock to grow on. These items are not listed separately but will be found with the larger sizes scattered through the list.

This list covers items of which we now have a fairly good supply. Many other things can be furnished in smaller quantities and quotations will be made on request.

This list is for the trade only and all prices are net.

CONIFERS

Unless otherwise noted all plants in this section will be balled at price quoted.

FLOWERING FRUIT TREES

All plants in this section will be dug with bare roots.

APPLES

Group A , 6 to 8 ft.....	1.25	1.00	
4 to 6 ft.....	1.00	.85	
3 to 4 ft.....	.75	.60	
ARNOLDIANA. Buds rose pink blooming white, single. Profuse bloomer, growth spreading.			
FLORIBUNDA PURPUREA. Very distinct. Foliage is deep bronzy purple, almost line Prunus pissardi. Flowers single deep red.			
HALLIANA. Flowers pink, drooping, single or semi-double, borne on stems nearly two inches long. Often mistaken for a cherry. Branches very long, slender and flexible. Sometimes called "Kaido" by the Japanese who twist and train the long branches into various shapes.			
MICROMALUS (KAIDO). Growth very erect and vigorous, profuse bloomer. Flowers light pink, single or semi-double.			
NIEDZWETZKYANA. Leaves, flowers, bark and even the wood is red. Flowers are large and semi-double.			
SCHEIDECKERI. Buds dark red; flowers light rose, semi-double.			
SIEBOLDI CALOCARPA. Similar to sieboldi arborescens, except that it bears larger scarlet fruit.			
SPECTABILIS. Flowers double pink, growth erect.			
Group B , 6 to 8 ft.....	1.00	.85	.75
4 to 6 ft.....	.75	.60	.50
ATROSANGUINEA. Buds deep crimson; flowers red; single or semi-double. Long branches. Extremely profuse.			
CORONARIA. Flowers pale pink; quite large. Growth erect and vigorous.			
FLORIBUNDA. Buds bright pink; flowers light pink turning white. Has long shoots completely covered with flowers.			
SIEBOLDI ARBORESCENS. Buds deep red; flowers pink. Profuse bloomer and bears heavy crop of red fruit the size of a pea.			

CHERRIES

The Japanese flowering cherries have a world-wide fame. They are little known in this country, but as none can be imported even for propagation, they have been practically unobtainable in the named varieties. Our collection includes nearly fifty kinds, but on account of difficulty of propagation we can offer only the following this season.

Descriptions are mainly based on results here. Where quotation marks are used the matter is copied from "Cherries of Japan" by E. H. Wilson.

Prices are based mainly on rate of growth which in some cases is extremely slow at first. Nearly all grow more like large shrubs than real trees and are best trained that way. They flower very young.

Varieties Marked A

4 to 5 ft.....	1.50	1.25
3 to 4 ft.....	1.25	1.00
2 to 3 ft.....	1.00	.75

Varieties marked B

2½ to 3 ft.....	1.50	1.25
2 to 2½ ft.....	1.25	1.00
1½ to 2 ft.....	1.00	.75
1 to 1½ ft.....	.75	.60

Varieties marked C

2 to 2½ ft.....	1.75	1.50
1½ to 2 ft.....	1.50	1.25
1 to 1½ ft.....	1.25	1.00
8 to 12 in.....	1.00	.75

Mixed—not labelled

2 to 3 ft.....	1.00	.75
1½ to 2 ft.....	.75	.60

AMAYA-NO-GAWA. Flowers deep pink, very double, medium size, borne in dense clusters. (C)
 FIUTICOSA. Flowers single white. Shrub only. Not Japanese. (B)
 FUGENZO. (J. H. Veitch). Flowers very large, deep pink, very double, petals ruffled. See cut in Bailey's Cyclopaedia of Horticulture at page 2832. (C)
 HIGURASHI. (P. lannesiana amabilis). "Flowers pale pink, double and semi-double, slightly fragrant. A good form." (C)
 HORINJI. "A very beautiful form with clusters of pale pink double and semi-double flowers." (B)
 KOMATSUMAGI. Flowers pink, semi-double. (C)
 KURAMAYAMA. Flowers semi-double, white with pink edge, very pretty. (B)
 MEIGETSU. Flowers single, white changing to pale pink. (B)
 MIKURU-MAKAISI. Flowers double, pale rose. (A)
 OJOCHIN. "Flowers semi-double, pale pink and very large. One of the best forms." (B)
 RANUNCULIFLORA. Flowers white, very double. Not Japanese. (A)
 SCHNEE. Has not flowered here, but is presumably double white. Not Japanese. (A)
 SEKIZAU. (Sekiyaama). "This form blooms late and has large, double, rich, rose colored flowers. To my mind it is the handsomest of all Japanese double-flowered cherries." (B)
 SERRULATA HOMOGENA. Has not bloomed yet and no description available. (B)
 SHIROFUGEN. (Victory; albo-roseo). A splendid variety. Flowers very large, very double and said to be pink turning white, but with us bears both white and pink flowers. (C)
 SHOGETSU. "Flowers pale pink, double and very large, on long stems. A rather late bloomer and one of the best." (B)
 SINGLE PINK. A graceful variety of rapid growth with arching branches. Flowers single pink and borne profusely. Fine. Species not yet identified. (A)
 TAIZANFUKUN. Flowers pink, medium size and double. Foliage very distinct and attractive. (B)
 YEDOENSIS. "This is the cherry so generally planted in the parks, temple grounds, cemeteries and streets of Tokyo and its flowers herald an annual national holiday decreed by the Emperor." Flowers single, pale pink and slightly fragrant; borne in wonderful profusion. A strong vigorous grower. (A)

JAPANESE WEEPING. An old favorite but always rare. Top grafted on straight stems it makes a beautiful object at any time and particularly in Spring when covered with its profusion of single pink flowers.

Top grafted on 5 ft. stems.....	2.00	1.75
Top grafted on 4 ft. stems.....	1.75	1.50
Top grafted on 3 ft. stems.....	1.50	1.25
Top grafted on 1½ ft. stems, 2 yr. hds	1.50	1.25

PEACHES

Double flowering, 4 to 6 ft.....	1.00	.85	.75

ROSES

I think it is safe to say that I am offering the greatest assortment of novelties in this country and a complete line of the usual varieties as well. Roses are decidedly scarce this season and will be offered in separate lists. Write any time for list corrected down to date. I handle both budded and own root stock and my connections with growers enable me to supply anything if it is obtainable at all.

ROSE BUDDING STOCKS

ROSA MULTIFLORA JAPONICA, seedlings.

This is the new rose stock that has become so popular. They are absolutely genuine as they were grown from seed raised on our own place.

As they can be budded almost at the root it is possible to avoid the usual "shank" almost entirely.
